

CURVALINEAR™ QUAD BASIN

Materials

Countertop & Basin: Constructed of heavy gauge, type 304 stainless steel with satin finish. Four seamless D shape bowls are deep drawn into the countertop. Integral backsplash and frame all have fully welded, seamless corners. A 35mm diameter tap hole is centred behind the basins, on the countertop. Basins are designed to accept standard 40mm waste outlet.

Taps and Waste Piping: not furnished

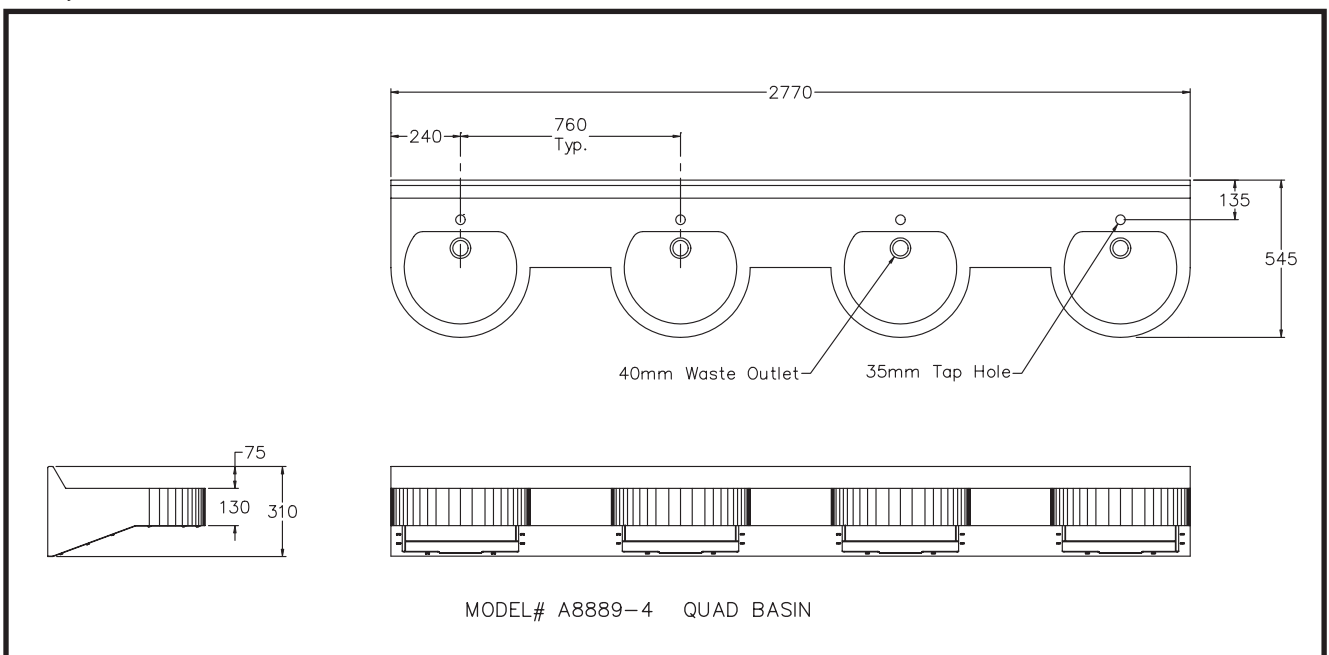

Designers Note: For increased vandal resistance, specify Model # A8889-4-EB Curvalinear™ Quad Basin with Trap Covers to enclose and conceal under-bench piping (refer separate Technical Data Sheet).

When using in disabled area ensure the taps selected will meet requirements of AS1428.1

Installation

Ensure wall construction is suitable to support the unit. Mount unit to wall with S-clip brackets provided and through sixteen fixing holes. Fixings screws not furnished. Basin rim is typically mounted 864mm above FFL. Refer disabled code for mounting requirements where basin is for disabled use. Adjust height to suit application if required (ie Disabled or children's use). Refer Installation Instructions for location of fixing points, trap outlet location etc. (A low level P trap should be used).

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.

As improvements in the design and performance of RBA products are continuous, specifications may be subject to change without notice.
